

Dear Forth enthusiast,

I would like to invite you to attend the 32nd **euroForth conference** on the Forth Programming Language and Forth Processors, the international annual get-together of the Forth Community from Friday, September 9th until Sunday, September 11th at Hotel "Mein Inselglück", Reichenau island (Lake of Constance), Germany with the traditional 4th day as an option until Monday preceded by the "Forth 20XX" standard days on Wednesday and Thursday.

As always, the conference is open to any Forth related topic:

Forth compilation techniques, advances in platform independence, stack based hardware architectures, compilation techniques, real-time and embedded systems solutions ...

You can contribute by presenting a Paper (20 minutes), by presenting a Poster, or by hosting a Workshop.

If you mail your paper (< 15 pages) **by August 31st** in PDF format to **kschleisiek@freenet.de** it will be included in the conference handouts. This is also the deadline for workshop requests.

As always, spontaneous contributions will be given ample space and time.

This year, you should register by August 1st,
when we will cancel all unused room reservations.

On Saturday we will take a boat trip from Konstanz to Friedrichshafen and visit the Zeppelin Museum (www.zeppelin-museum.de).

See: <http://www.complang.tuwien.ac.at/anton/euroforth/ef16/> for the most up-to-date information.

How to get there: Trains from Zürich airport to Konstanz run every half hour and they take about one hour. Continue by taxi or the "Seehas" regional train to "Reichenau Bahnhof" and take the 7372 bus to "Mittelzell/Museum". Then it's a three minute walk to "Mein Inselglück".

I hope to see your there :)

Klaus Schleisiek
